### CODE OF ETHICS

- \* Engineers shall hold paramount the safety, health and welfare of the public and proper utilization of funds in the performance of their professional duties. It shall take precedence over their responsibility to the profession, to sectional of private interests, employers or to other engineers
- \* Engineers shall always act in such a manner as to uphold and enhance the integrity and dignity of the professional while safeguarding public interest at all time.
- \* Engineers shall build their reputation on merit and shall not compete unfairly.
- \* Engineers shall perform professional services only in the areas of their competence.
- \* Engineers shall apply their skills and knowledge in the interest of their employer or client for whom they shall act, in professional matters, as faithful agents of trustees, so far as they do not conflict with the other requirements listed here and the general public interest.
- \* Engineers shall give evidence, express opinions or make statements in an objective and truthful manner.
- \* Engineers shall continue their professional development throughout their careers and shall actively assist and encourage engineers under their direction to advance their knowledge and experience.

Now it is up to you to figure out yourself how far ethical you are no matter who says what;

Honorary Secretary,
