# 45<sup>TH</sup> ANNUAL GENERAL MEETING OF ENGINEERS' UNION

**Date** : Friday 06<sup>th</sup> October 2023  
**Venue** : The Grand Ball Room, The Jie Jie Beach, Panadura.

## **AGENDA**

- 8.30 a.m. - Arrival & Registration of Members.
- 09.00 a.m. - Notice of Convening the AGM.
- 09.05 a.m. - National Anthem.
- 09.10 a.m. - Minutes of the 44th AGM and Confirmation of Minutes.
- 09.15 a.m. - Presidential Address.
- 09.25 a.m. - Annual Accounts for the Session 2022/2023
- 09.35 a.m. - Election of New office Bearers for the Session 2023/2024.
- 10.00 a.m. - Presentation by main Sponsor
- 10.20 a.m. - Raffle Draw.
- 10.35 a.m. - Resolution & Discussions.

## **AGENDA FOR CEREMONIAL EVENT**

- 11.00 a.m. - Arrival of Guests & Lighting Oil Lamp,  
Two minutes Silence for remembering the past  
members, National Heroes and War Heroes.
- 11.10. a.m. - Welcome Speech by the Newly Elected President.
- 11.20. a.m. - Speech by the General Manager.
- 11.30 p.m. - Speech by the Chairman.
- 11.40 p.m. - Speech by Secretary to the Ministry.
- 11.50 p.m. - Speech by the President IESL
- 12.00 p.m. - Speech by the Hon. Minister
- 12.10 p.m. - Presenting of Souvenirs to past Members.
- 13.00 p.m. - Vote of Thanks by the Secretary.
- 13.05 p.m. - Fellowship.

## MESSAGE OF MINISTER OF WATER SUPPLY AND ESTATE INFRASTRUCTURE DEVELOPMENT

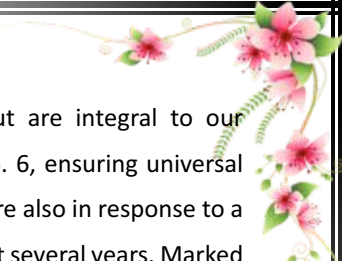

I extend my warm greetings to all of you on this momentous occasion, the 45th Annual General Meeting of the Engineers Union of the National Water Supply and Drainage Board.

As we celebrate this occasion, I must acknowledge the pivotal role that the National Water Supply and Drainage Board (**NWSDB**) have played over the past 48 years. NWSDB, as the premier organisation entrusted with the vital task of providing water and sanitation services to our nation, has been the cornerstone of progress in ensuring clean water access and sanitation facilities for our citizens.

At the heart of NWSDB's success lies the dedication and unwavering commitment of our engineers. It is you, the engineers, who have been instrumental in realising the mission and mandate of this organisation. Your technical powers, professionalism, and unwavering enthusiasm have been the driving force behind the safe and reliable water and sanitation services that we provide to our people.

During my short tenure, I have had the privilege to witness first-hand your remarkable efforts. You have consistently met and often exceeded the targets set before you. Whether it was managing water resources during times of drought, responding to the challenges posed by the global pandemic, or demonstrating resilience in the face of economic adversity, you have always risen to the occasion with remarkable dedication.

The water sector in Sri Lanka is now undergoing the most transformative reform initiatives since its establishment. These significant reforms are aimed at enhancing efficiency, accessibility, and sustainability in the water sector, especially the NWSDB.

The reforms that we are undertaking are challenging but are integral to our commitment to meeting Sustainable Development Goal No. 6, ensuring universal access to safe drinking water and sanitation by 2030. They are also in response to a country and world that has changed significantly over the last several years. Marked by the aftermath of a global pandemic and economic uncertainty, organisations like NWSDB must evolve and adapt to new paradigms. Embracing digitalisation, enhancing efficiency and productivity, addressing the impacts of climate change, harnessing renewable energy sources, and developing multi-faceted skills are critical areas that demand our immediate attention. These efforts will pave the way for the transformation of the NWSD, positioning it at the forefront of a new era in Sri Lanka's and the region's utility sector.

To achieve this, especially as a young Minister, I need your support and utmost dedication.

I am profoundly confident that our Engineers Union, comprised of individuals who exemplify professionalism and innovation, is more than ready to embark on this transformative journey. The Engineers Union must serve as the catalyst for change, driving forward the modernisation and advancement of NWSDB.

As we stand at the threshold of a new chapter, I extend my heartfelt wishes to the Engineers Union. May you continue to lead with vision and determination, steering this organisation to even greater heights.

Thank you for your unwavering commitment, and I look forward to witnessing the remarkable contributions that lie ahead.

*Jeevan Thondaman*

**HON. MINISTER**

**MINISTRY OF WATER SUPPLY AND ESTATE INFRASTRUCTURE DEVELOPMENT**

## MESSAGE OF SECRETARY OF WATER SUPPLY AND ESTATE INFRASTRUCTURE DEVELOPMENT

Civil engineering is one of the top professions in the world. In the world history of civil engineering, Sri Lanka has achieved a very significant position due to the construction of thousands of magnificent earthen dams and reservoirs to provide people with water for drinking, all domestic works, and agricultural activities.

Thus, I'm glad to submit a message on the occasion of the 45th Annual General Meeting of the Engineers' Union of the National Water Supply & Drainage Board (NWSDB), who are continuing

that excellence by giving the best service to the nation in the water supply and sewerage sector.

NWSDB under the guidance of the Ministry of Water Supply actively engages in developing SDG 6: "Ensure availability and Sustainable Management of Water and Sanitation for all" by setting targets in order to monitor and report the achievements related to the above sub-goals.

The Ministry was working closely with NWSDB to achieve the targets already set for 2023 and the NWSDB being the apex agent of the water supply to the nation, has been functioned successfully since the last 49 years. The organization has provided its best services effectively to the nation not only during the normal situations but also in the difficult situations such as the civil war, political up heads, tsunami, Easter Bomb Blasting and COVID-19 pandemic situations.

Further, the Ministry is working with NWSDB for improving its business efficiency aspects. In addition to restructuring of the organization, cost reductions through efficient resource utilization, reducing non-revenue water, efficient stock management and enhancement of productivity through modern working techniques etc. are being critically looked at currently. At the end of year 2022 several key performance indicators have been declared by the Ministry for monitoring the performance of NWSDB in year 2023 and it is expected that the step taken will be illuminated the gray areas related to the performance efficiency and it will pave the way to improve the most needed Performance Efficiency of the organization.

I wish all success to the endeavors of the Engineers' Union of the NWSDB to provide the public with high quality and efficient water supply and sewerage services in order to achieve the expected high targets in water supply and sanitation.

## MESSAGE OF THE CHAIRMAN, NWS&DB

The National Water Supply & Drainage Board is the National Organization responsible for the provision of safe drinking water and facilitation the sanitation to the people in Sri Lanka. In this endeavor, the Engineers play a vital role in the functions of the NWSDB. During the recent past, when the country was gripped by unprecedented economic downturn due to pandemic, the NWSDB performed admirably to meet the urgent needs of the public towards which the Engineers played a crucial part to provide the services expected.

Since there are various employee categories with different fields in NWSDB, it is very important for Engineers to work as a team and take leadership to achieve the expected targets of the organization. It is important to note that developing Technical Skills is the primary focus in the early stages of career growth for an Engineer, ensuring proficiency in their specific domain, and successful advancement into later stages of career growth, such as managerial or executive roles, requiring cultivation of both strong soft skills.

The exposure an Engineer needs to develop as a fully-fledged professional is provided by the NWSDB and young Engineers guided by their superiors have grabbed the opportunity with both hands for their benefit. I appreciate the effort made by the Senior Engineers in this regard.

It is the responsibility of Engineers to review existing processes in the organization, in order to identify opportunities for reducing costs, increasing efficiency, investigating the root causes of problems, and developing and implementing corrective and preventative measures. Accordingly, the contribution of Engineers is essential to provide cost-effective and quality service to the public managing within the prevailing

tariff structure without further increasing unnecessary burdens to the customers. It should be borne in mind that NWSDB is basically a service-providing organization for providing sustainable water and sanitation solutions ensuring total user satisfaction.

I take this opportunity to extend my gratitude to the past president of Engineers' Union, Eng. D.P.M.P. Priyankara who rendered a great service to the organization as well as to the Engineers' Union during his tenure, and also my sincere thanks to the present President, Eng. Primal Jinadasa for continuing the excellent service of the former President.

I wish the Engineers' Union great success in all their future endeavors.

*Nishantha Ranatunga*  
CHAIRMAN  
NATIONAL WATER SUPPLY & DRAINAGE BOARD

## MESSAGE OF THE VICE CHAIRMAN, NWS&DB

*Dear Members of the Engineers Union,*

I hope this message finds you all in good health and high spirits. It is with great pleasure and pride that I extend my warmest congratulations to each and every one of you on the occasion of the 45<sup>th</sup> Annual General Meeting of our Engineers Union, serving the National Water Supply and Drainage Board.

Over the years, your dedication and unwavering commitment to our organization have been truly commendable. You have rendered exceptional services, demonstrating remarkable expertise and a deep sense of responsibility. Your contributions have played a pivotal role in the success and progress of the board, ensuring the efficient provision of water supply and drainage services to our nation.

As we gather to celebrate this significant milestone, I want to convey my heartfelt wishes for your future endeavours. May you continue to march forward with the same vigor, strength, and enthusiasm that have defined your association with the board. Your energy and passion for your work have been instrumental in shaping the water supply and drainage landscape, and I have no doubt that your future activities will be marked by even greater achievements.

In conclusion, I extend my best wishes to all of you, the dedicated members of the Engineers Union, as you convene for this 45<sup>th</sup> Annual General Meeting. May your discussions be fruitful, your decisions wise, and your camaraderie strong. Together, we look forward to a future filled with success, innovation, and excellence in service.

Once again, congratulations on reaching this remarkable milestone, and I eagerly anticipate witnessing the continued growth and accomplishments of our Engineers Union.

With great respect and admiration,

*Sanjeena Wijekoon*

## MESSAGE OF THE GENERAL MANAGER, NWS&DB

I am delighted to convey this message on the occasion of the 45th Annual General Meeting of the Engineers' Union of the National Water Supply & Drainage Board.

The National Water Supply & Drainage Board has served as the leading organization responsible for providing comprehensive water and sanitation services to the entire country for several decades.

As an essential service, the NWSDB has played a pivotal role in meeting the critical need for drinking water supply, especially during the Covid pandemic. Operating across the entire island has presented us with complex challenges.

Ensuring a continuous water supply to hospitals and Covid centers has been a key element in our efforts to combat the pandemic. Moreover, households have heavily relied on domestic piped water supply to maintain cleanliness and curb the spread of the Covid Pandemic. During the past recent economic downturn and political instability, the NWSDB demonstrated resilience by maintaining uninterrupted water supply services nationwide.

In the past, the NWSDB had limited resources, including a small number of Engineers, minimal human resources, and basic technology. At present, we boast a team of around 600 Engineers, along with other professionals, supporting staff, and advanced technology. As a result, significant institutional development has occurred over time. However, the demand for water has significantly increased, necessitating a re-engineering of our processes to address global challenges while utilizing advanced technologies to ensure optimal stakeholder satisfaction, which is paramount for the consumers.

Furthermore, it is essential for Engineers in deferent disciplines to play the key role themselves as a profession but to uphold the dignity of their profession within the NWSDB while professionally and efficiently fulfilling their assigned tasks. This is crucial in our mission to expand service coverage, meet the growing demand for clean drinking water, and provide efficient sewage systems nationwide a challenge compounded by the ever-increasing population and rapid industrialization.

I am pleased to note a positive change in the attitude of these professionals in recent times, particularly in their collaboration with other employees of the Board. This shift is a significant factor in our collective pursuit of the organization's common goals.

I would like to extend my appreciation to the Engineers of the NWSDB and commend the Engineers' Union for their responsible and committed efforts. I wish them continued success in their future endeavors.

*Ruman Lijanage*

## MESSAGE OF THE PRESIDENT OF ENGINEERS UNION

It is with great pleasure and satisfaction that I issue this message on the event of 45<sup>th</sup> Annual General Meeting of Engineer's Union as President at the Engineer's Union of National Water Supply & Drainage Board.

The Water Board which falls under essential services is a vital organization for providing drinking water to the public. The Engineers realizing this noble truth are trying their best to deliver the services to the best of their capacity. Despite the difficulties and issues such as the global pandemic crisis and economic setbacks of the country, we engineers maintained the continuity of our services to public and we should continue that attitude giving example to other similar organizations.

Further, we have shown our capacity and capability during planning and designs of the Water For All programme to achieve 79% National pipe born water coverage, NWSDB Engineers have performed creditably to meet all the needs of the organization.

We have to go long way to win our rights, but we should not forget our obligations. We engineers must take an initiative to work with the management and other trade unions for the benefit of our membership and the organization for the development of the country. I believe our efforts these past years have begun to lay a foundation upon which a great union will continue to be built years to come.

I take this opportunity to thank specially the Executive committee for their active and remarkable contribution and all our members who were always with the positive approach encouraging and guiding the Executive Committee at every critical situation we had face. I also would like to appreciate the support given by the Chairman, the General Manager and the higher management of the NWSDB to solve the issues pertaining to our membership as far as possible.

Finally, I wish all the success to the forthcoming Executive Committee in our future activities to uplift the NWSDB while safeguarding the rights and moral obligations of our membership.

*Manjula Priyankara*

**164, KESBEWA ROAD, BORALESGAMUWA**

**Eng.T.S. Wijetunge**

**(1987–2022)**

Eng. T.S. Wijetunge obtained his Bachelor of the Science of Engineering degree (Civil Engineering) from the University of Peradeniya in 1985. Then he obtained a diploma in Project Management & Administration held by the Royal Danish Ministry of Foreign Affairs and Nies Brock Copenhagen Business College, Denmark, in 1993 and a MBA from the University of Colombo (2000–2003). He also earned a Postgraduate Diploma in Corporate and Strategic Finance (ICA-SL) (2004–2005).

Further, he obtained an MA in Financial Economics (2005/2006) and a Masters in Regional Development Plan (2010) from the University of Colombo. He is a fellow member of the Institute of Engineers, Sri Lanka, and a member of the Institution of Management, Sri Lanka. Eng. Wijetunge began his career in the private sector as a site Engineer in the construction field. He joined the NWSDB as an Engineer for the groundwater section, NWSDB. Successively, he served in various positions, such as senior Engineer, Team Leader (DANIDA project construction), Manager (operations), Manager (Coordination and Operations), Chief Engineer (P&D-sewerage), Chief Engineer (Planning), Assistant General Manager (Strategic Planning), Deputy General Manager (ADB/JICA), Additional General Manager (Policy & Planning), and was appointed as General Manager, NWSDB in 2020. He retired from NWSDB as General Manager in 2022 after serving to the board for 35 years.

**Dr. (Eng.) W.K. Illangasinghe**

**(1987–2023)**

Eng. W.K. Illangasinghe obtained a Bachelor of Science degree (Hons) in Engineering from the University of Peradeniya in 1984. Next, she obtained a MSc in Infrastructure Management from Yokohama National University, Japan, in 1999. Further, she obtained a Ph.D. in Civil Engineering (Specialised in Water Treatment) from the University of Moratuwa in 2019. She is a Corporate Member of the Institution of Engineers, Sri Lanka. In

addition, she is a member of the Geo-Informatic Society of Sri Lanka. Further, she held the positions of editor and chairperson of IESL-Central Province. Dr. (Eng.) W.K. Illangasinghe began her career as an instructor in the Faculty of Engineering at the University of Peradeniya. Then she continued her career path as a Civil Engineer in several government organisations, such as the Road Development Authority, the Telecommunication Department, and the National Building Research Organization. She joined NWSDB in 1987 and successively served in various positions, such as Civil Engineer (Const. and P&D – 1987), Resident Engineer (Const. and O&M – 1988), Senior Engineer (P&D), Chief Engineer (Sector Planning – 2000), Project Manager/Acting Project Director (Kandy south WSP – 2004), Project Director (Kandy south WSP – 2007), Project Director (KCWWMP – 2012), Deputy General Manager (RSC – North Western Province – 2016), Additional General Manager (Policy & Planning – 2020), General Manager (2023). She served to the NWSDB for more than 36 years, and overall, she served as an engineer in different organisations and in different positions throughout her career.

**Eng. S.G.G Rajkumar,**

**(1990-2022)**

Eng. S.G.G Rajkumar, obtained his BSc. Engineering (Hons) Degree from the University of Peradeniya. He joined the P&D division of NWSDB as an Engineer after working in a private consultancy firm. During this period, He obtained his Master of Engineering Degree from the University of Moratuwa, Master of Business Administration from Postgraduate Institute of Management (PIM), Sri Jayewardenepura, Master of Science from Aalborg University, Denmark. He is a chartered Engineer, Fellow of IESL, and International Professional Engineer (IESL). He served the Engineers Union for many years as the President, Vice president, Editor, Committee member. He served as a Designs Engineer, Construction Engineer, Manager ((Project Management Analysis Unit (Presently Corporate Planning), Chief Engineer Designs, Project Director (Kelani Conservation Barrage), AGM (NRW), Where NRW in Colombo City was brought down from 54% to 46% without additional investment, all free water outlet was converted to revenue generation outlets. He was also seconded as Advisor to Department of National Planning. During Six-years period was being as DGM (Commercial), saw the major change in customer satisfaction, improvement in service excellence with introduction of many IT based solutions. As Addition GM (Corporate Service) for two years introduced many IT based solutions too, the most noteworthy change is maintaining Samata Jalaya Stock worth billions and Normal stock 12 billion, separately and Completing Stock verification within one month. He retired as Additional General Manager, after serving 32 years.

**Eng. Vajira Wijeratne**

**(1989-2023)**

Eng. Vajira Wijeratne obtained his B.Sc. in Engineering (Hons) degree from the University of Moratuwa in 1987. He completed his Master's degree in the Netherlands in March 2004. He commenced his engineering career as a Civil Engineer to play the consultant role attached to the CECB in July 1987 for two years. Then he decided to change his Civil Engineering career in another dimension by choosing the National Water Supply and Drainage Board in November 1989. He worked in several disciplines, like Engineer (O&M) Anuradhapura (1989), District Engineer (Matara) (1991), and Engineer (P&D Head Office) (1993). Chief Engineer (1996), Assistant General Manager (North-Western) (2007), and Team Leader (Strategic City Development Project) (2013) Then he got his next promotion in October 2016 as Deputy General Manager (North Central, North Western, and Central). After his next promotion in February 2022 as Additional General Manager, he supervised seven districts under three provinces, such as Central, North-Western, and Sabaragamuwa. In addition, he served on many technical committees and retired from the service of NWSDB in February 2023, having served to the NWSDB for more than 34 years.

**Eng. I. V. W. Ediriweera**

**(1989- 2022)**

Eng. I. V. W. Ediriweera obtained his B.Sc. Engineering (Civil Engineering) degree from the University of Moratuwa in 1986. He also obtained a Master's degree in Water Resources Management(1999) from the University of Lunenburg, Germany and a M.Sc. in Development Studies (2016) from the University of Colombo, Sri Lanka.. He is a Fellow of the Institution of Engineers Sri Lanka and Member of the International Water Association - UK.

Eng. I. V. W. Ediriweera commenced his engineering career as an Engineer attached to the CECB for two years from April 1987 to October 1989. Then he joined to the National Water Supply & Drainage Board (NWSDB) in November 1989 as an Assistant Regional Manager (Southern)/District Engineer (Matara). He worked in several disciplines in the Water Supply and Sanitation Sections. Successively, He served in various positions such as Engineer(CP), Regional Manager(Hambantota), Chief Engineer(Operations, Colombo Metropolitan), Deputy Director(Technical), AGM(RWS), AGM(CP), AGM(P&S), DGM (RWS) & DGM(CP). He became Addl. General Manager (Water Reclamation) in 2021 and worked in the same position until he retired in December 2022. In addition, he served in many technical committees and published many technical papers. He served the Board for more than 33 years.

**Eng. S.A. Rasheed**

**(1990-2022)**

Eng. Sinnathurai Abdul Rasheed obtained his B.Sc. Engineering Degree (in Civil Engineering) from the University of Peradeniya in 1990. He obtained a M.Sc. in Sanitary Engineering from UNESCO, IHE Delft, Netherlands in 2008, P.G. Diploma in Structural Engineering in 2009 and Master of Business Administration (MBA) from the University of Sri Jayawardenepura in 2017.

Eng. S.A. Rasheed Joined the NWSDB as a Site Engineer (construction) in May 1990. Successively, he served in various positions such as Engineer (Construction) - Greater Colombo Area (1991-1992), Project Manager of Sammanthurai and Kalmunai Water Supply System (1993- 1998), Regional Manager Eastern Province (Ampara and Batticaloa District) (1998-2003), Acting Assistant General Manager (Eastern Province)(2003-2004), Manager (Towns East of Colombo) (2005-2006), Assistant General Manager (Operation and Maintenance of RSC Western Central)(2008-2011), Project Director (Master Plan/GCWWMIIP) (2011-2021), Deputy General Manager (Eastern Province) (2016-2018) & finally, as the Addl.GM (CAM) from 2021 to 2022. Eng. S.A. Rasheed retired from NWSDB on 31<sup>st</sup> Dec. 2022, completing a valuable service of 32 years.

**Eng. A. Munasinghe**

**(1991–2023)**

Eng. A. Munasinghe obtained his Bachelor of Science degree in Engineering from the University of Moratuwa in 1990. Then, he obtained a Master of Engineering (Hydrology and Water Resources) from the International Institute for Infrastructural, Hydraulic, and Environment Engineering (IHE) in Delft, Netherlands, in 2003. He is a fellow member of the Institution of Engineers Sri Lanka. Eng. A. Munasinghe began his career as a civil Engineer at the Central Engineering Consultancy Bureau (CECB) and only stayed for a 1-year period. He joined the NWS&DB as a Civil Engineer in 1991. Successively, he served in various positions, such as Engineer in 1991 (Tender & Contracts), Regional Engineer (O&M Kalutara) 1991–1999, Senior Engineer, 1999–2001 (P&D Head Office), Manager (O&M Kalutara) 2001–2002, Chief Engineer (P&D Head Office) 2003–2010, Deputy Project Director (Kaluganga Water Supply Project) 2010–2012, and Assistant General Manager (P&D Head Office) 2012–2020. He was appointed as Deputy General Manager (P&D Head Office) in March 2020, and he held this position until he retired from the NWSDB in July 2023, serving the board for 32 years. He was an active executive committee member of Engineers' union for several years, the immediate past president of Engineers' Union & worked with several technical committees in NWSDB.

**Eng. N.A.S. Shantha**

**(1993–2023)**

Eng. N.A.S. Shantha obtained his Bachelor of Science degree in Civil Engineering from the University of Moratuwa in 1993. Further, he obtained a postgraduate diploma in Structural Design from the University of Moratuwa. He is a corporate member of the Institute of Engineers, Sri Lanka. He began his career at UTE (Projects) Pvt. Ltd. as a site Engineer in May 1991. In 1991, he joined the Road Development Authority as a Civil Engineer. Eng. N.A.S. Shantha joined NWSDB as a Civil Engineer in 1993. Successively, he served in various positions, such as Design Engineer (P&D Head Office) 1993–2000, Chief Engineer/DRE, (Kaluganga Water Supply Project, Stage I) 2000–2008, Chief Engineer/RE-(Kelani Right Bank Water Supply Project, Stage I) 2008–2012, Assistant General Manager/DPD (Kaluganga Water Supply Project, Stage II) 2012–2016, Deputy General Manager/PD (Kelani Right Bank Water Supply Project, Stage II) 2016–2020, DGM (Project Coordination, Water Supply Project Division) 2020–2023, He retired in June 2023, his long career of service to the board had endured more than 30 years.

**Eng. J.A.A.P. Jayasinghe**

**(1989- 2023)**

Eng. J.A.A.P. Jayasinghe obtained his B.Sc. Engineering (Civil Engineering) degree from the University of Moratuwa in 1985. He obtained his Post Graduate Diploma in Construction Project Management from the University of Moratuwa. He is a Corporate Member of IESL. Eng. J.A.A.P. Jayasinghe joined to the National Water Supply & Drainage Board (NWSDB) as an Engineer in May 1989.

He worked in several disciplines in the Water Supply Sections successively. He served in various positions such as Engineer (O & M Kandy), District Engineer- Kegalle, Design Engineer(P&D) Head Office, Project Manager (Bataleeya & Deraniyagla, Polonnaruwa, Nittambuwa, Gampaha/ Kurunegala Districts WSPs & BOI Projects) during 1995 to 2008, Chief Engineer(Const.)- RSC(W/N)(2008-2016), Assistant General Manager (Development)(2016-2017), Deputy Project Director- Gampaha, Attanagalla Minuwangoda IWSS(2017-2020), PD - Katana WSS(2020-2021), Deputy General Manager (Development) (2021-2022) & finally as the DGM (Sabaragamuwa). Eng. J.A.A.P. Jayasinghe retired from NWSDB on 06<sup>th</sup> August 2023, completing a valuable service of 34 years.

**Eng. M.M.M. Nazeel**

**(1991-2022)**

Eng. M.M.M. Nazeel obtained his Bachelor of Science degree in Engineering from the University of Peradeniya in 1990. Then he obtained a postgraduate diploma in the field of Environmental Water Resource Engineering and Management from the University of Moratuwa in 2000 and a Master of Engineering in Water and Environmental Resource Management from the Institute of IHE-UNESCO in Delft, Netherlands, in 2003. He is a corporate member of

the Institute of Engineers, Sri Lanka. He began his career at the State Engineering Corporation as a Civil Engineer and stayed for a few months. Eng. Nazeel joined NWSDB as a Civil Engineer on August 1, 1991. Successively, he served in various positions, such as District Engineer (Polonnaruwa), Engineer (O&M Ampara/P&D-Head Office), Chief Engineer-(Construction-Ampara) 2001, Project Manager (ECTAD Project) 2003, Deputy Project Director (KFW) 2005, Manager (O&M Ampara) 2009, Project Manager (EPWSDP) 2011 - Assistant General Manager (Southern Province and Eastern South Province) 2014, and appointed as Deputy General Manager in 2021, which post he held until he retired from the NWSDB in 2022, serving the board for more than 31 years.

**Eng. W.D.L. Chandrasiri**

**(1991-2023)**

Eng. W.D.L.Chandrasiri obtained his B.Sc. Eng. Degree (Civil Engineering) from the University of Moratuwa in 1990. He obtained his Post Graduate Diploma in Environmental Science from the Open University of Sri Lanka, in 2015. He is a Corporate Member of IESL.

Eng. W.D.L.Chandrasiri Joined NWSDB as an Engineer (Construction) in February 1991. Successively, he served in various positions such as Resident Engineer -Buttala (1991-

1992), Resident Engineer- Mihithale (1992-1993), Project Manager- Divulapitiya (1993- 1995), Design Engineer - Planning and Designs Section (1995-1997), Engineer -Construction (1997- 1998), Area Engineer -Colombo Central (1998-1999), Chief Engineer -Colombo City (2000 – 2001), Manager -Colombo city(2001-2010) Manager -Colombo South(2010-2014), Assistant General Manager-GCWR (2014-2021) & finally as the Deputy General Manager-CAM (2021-2023).

Eng. W.D.L. Chandrasiri retired from NWSDB on 27<sup>th</sup> March 2023, completing a valuable service of 32 years.

**Eng. M.K.A.J.M.Wijesinghe**

**(1989-2022)**

Eng. M.K.A.J.M.Wijesinghe obtained her degree in B.Sc. Engineering (Civil) from the University of Moratuwa in 1987. Then she obtained MSc in Sanitary Engineering from IHE Delft, Netherlands in 2002.

Serving a period of one year (1987) for University of Moratuwa as an instructor and two years as a Structural Designs Engineer for Central Engineering Consultancy Bureau (CECB), Eng. M.K.A.J.M.Wijesinghe joined NWSDB in

November 1989 as a Civil Engineer. She worked in several disciplines, Project Management, Procurement and Contract Administration, Planning and Designs as an engineer and held positions such as Assistant Resident Engineer and Deputy Resident Engineer IDA projects (Ambatale, Jubilee, Maharagama Water Supply Projects and Scraping and Relining Project.) and from project formulation to procurement stage under the Colombo Environment Improvement Programme, Engineer (P&D) until 2000.

On completion of studies at IHE, she promoted as CE (2003) and worked as CE (CP) and CE-construction Projects in RSC (WS). Then she promoted as AGM (Development) in 2012 and was appointed as PD (Kolonna/Balangoda WSP). She worked as AGM (Western) 2014 - 2016 and PD (Aluthgama/Matugama/Agalawatta IWSP) 2016 - 2019. In 2019 she promoted as Deputy General Manager and worked as DGM (Southern) and DGM (CP). She was an active executive committee member of Engineers' union for several years and worked with several technical committees in NWSDB. She retired in 2022 serving consecutive 33 years for NWSDB.

**Eng. Rohan Fernando**

**(1994 - 2022)**

Eng. Rohan Fernando joined the NWS&DB as a Civil Engineer (Gr. IV) in October, 1994. Prior to joining the NWSDB he served in the NBRO and CECB altogether for 4 years. At CECB, he served in the Samanalaweva Dam Site and Power Station and obtained design and heavy construction experience to become a Chartered Engineer in 1994.

In the NWS&DB, he was first attached to the ADB funded Second Water & Sanitation project (ADB 1B) in the Southern Province. Thereafter in 1996 he was posted to the ADB 1C project implemented in the Central & UVA Provinces. In both projects, he served as an Assistant Resident Engineer.

After completion of ADB 1C project, Eng. Rohan was transferred to the Head Office in 1999. There was a need to establish a technical unit under the line Ministry and he was seconded to the Ministry of Urban Development & Water Supply. He was designated as a Deputy Director in par with his Chief Engineer position in 2000. When the Tsunami Waves hit the coastal areas, Eng. Rohan was assigned the task of acting as a 'focal point' under the Ministry to pursue Donor Assistance from the Western World for Restoration Activities. He approached the European and US -Multi Donors to assist in the immediate relief activities under "Water & Sanitation".

With his innovative approach, he collaborated with Water Health International, USA to import 15 Package Water Treatment Plants and to install in the Tsunami Restoration Housing Sites. He was instrumental in the design and fabrication of the first mobile Water Testing Laboratory with Italian Grants, which was used for On-site Testing & Reporting in the Tsunami areas and later in the Manik Farm, Refugee Camp in the North.

His prime skill was in Contract Law and while he was serving as a Chief Engineer in the P&D Section, he exploited the provisions of NWSDB ACT and supported the NWSDB to get exempted from a massive rental for pipeline occupation on the RDA and Provincial Roads, which saved many Rs. Millions every year.

In the Arbitration conducted in the Greater Colombo Wastewater Management Project, he took the entire workload as the Project Director when the Senior Counsel withdrew from appearing, but endured a full-blown Arbitration and finally clinched the benefits for the NWSDB, which never seemed possible at the outset. His representations at the Arbitration were well appreciated by many Senior Counsels, which paved him the way to be enlisted in the IESL Directory of Adjudicators/ Arbitrators.

Eng. Rohan took over the Presidency of the Engineers Union at a very controversial time when many Seniors were reluctant to accept that role. Being only a Chief Engineer at that time, he encountered many challenges. He was very wise and prompt in intervening into a Court Case filed by other two Unions representing the technological stream against the Board to implement an exclusively-manuevered promotional path that adversely affected the Engineers, which the Court finally decided in favor of Engineers Union's stance, recently in 2023 after a long hearing.

He very strategically challenged an attempt to amalgamate the Finance and Commercial Sections in the Board that might have camouflaged the "checks and balances" in the system, by filing action in the Courts on a technical point, which eventually gave a historical victory for the Engineers Union.

Eng. Rohan held the Presidency of the Engineers Union for 31/2 years, which may be the longest so far. He has obtained post graduate qualifications in construction management and International Relations and Masters in Business Management and International Business Law. In the IESL, he is a Fellow member and an Executive Council Member as well.

**Eng. G.M. Thilakarathne**

**(1995-2022)**

Eng. G.M. Thilakarathne obtained his BSc (Civil Engineering) degree and Master of Science of Engineering (Environmental and Water Engineering) from the University of Peradeniya in 1991 and 2008. He also obtained Master of Engineering Degree (Structural Design) from the University of Moratuwa in 2008 and Master of Business Administration from Wayamba University in 2013. He is a fellow member of IESL from 2010. He joined NWSDB after having experience from several organizations as an Assistant Resident Engineer in

ADB Assisted Second Water Supply and Sanitation Rehabilitation Project of urban water supply systems to the number of towns (Gampola, Kegalle, Warakapola) in 1995. Consequently Eng. G.M. Thilakarathne served in various positions in NWSDB such as Design Engineer (P&D) 1999 - 2000, District Engineer (Kegalle) 2001-2002, Chief Engineer (P&D), RSC (North Western) 2003-2009, Manager ( O&M) RSC(North Western) 2010 – 2013, Assistant General Manager (North) 2014-2016, Assistant General Manager / Project Director of Polgahawela, Pothuhera and Alawwa Integrate Water Supply Project (2017-2020) and Deputy General Manager / Project Director (2021-2022). Engineer G.M. Thilakarathne finally retired from NWSDB in December 2022 after 28 years of service.

**Eng. Mrs.J.Sivakumar**

**(1996–2022)**

Eng. (Mrs.) J. Sivakumar obtained her Bachelor of Science in Engineering (Civil) Honours degree from the Faculty of Engineering, University of Peradeniya, in 1990. She obtained the postgraduate degree of Master of Engineering in Water and Wastewater Engineering at the Environmental Engineering Division, Asian Institute of Technology (AIT), Bangkok, in 1993, and in Structural Engineering Design at the University of Moratuwa in 2008. In 2016, she obtained a Professional Diploma in Sanitation and Sanitary Engineering (online) from

UNESCO-IHE, Delt. She became a fellow member of the Institute of Engineers, Sri Lanka, in March 2020. In 2013, she published two papers in the IESL, Transaction 2013, Volume 1, Part B, on "Improvement of Water Supply in Madiwela High Elevated Area" and "Water Supply Improvement in Jayawadanagama Housing Scheme". Eng. (Mrs.) J Sivakumar began her career as a Design Engineer at Environmental Engineering Consultant (EEC) and gained 2 ½ years' experience in water retaining structural designs, operational maintenance, and maintenance in water and wastewater treatment processes. She joined the NWS&DB as a Civil Engineer (P&C) – Greater Colombo – August 1996 to June 1998; Resident Engineer (TSC – Water Supply Project) – July 1998 to January 1999; Civil Engineer (JPU) – February 1999 to August 1999; Design Engineer (P&D) – August 1999 to April 2003; Chief Engineer (CMR – Development) – April 2003 to September 2007; Chief Engineer (R&D) – October 2007 to July 2008; Chief Engineer (Development) – RSC (WC) – August 2008 to May 2016; and appointed as Assistant General Manager (Corporate Planning) in May 2016, which she held until she retired from the NWSDB in December 2022, serving to the board for more than 26 years.

**Eng. N. Chandrasena**

**(2004–2022)**

Eng. N. Chandrasena obtained his Bachelor's degree in Engineering from the University of Peradeniya in 1997. Further, he obtained a postgraduate diploma in Highway and Traffic Engineering from the University of Moratuwa in 1997. He is a corporate member of the Institution of Engineers, Sri Lanka. He began his career as an Engineer at Road Construction & Development Company (Pvt) Ltd. on November 26, 1987, and

served there in various positions such as Site Engineer, Project Engineer, Project Manager and District Manager until December 30, 2003. After the total closure of Road Construction & Development Company (pvt) Ltd., Eng. N. Chandrasena joined NWSDB as Chief Engineer on contract basis attached to ADB 4th Project Anuradhapura. He got the permanent appointment of Chief Engineer on NWSDB in July 2009 and successively served in various positions, such as Manager, 2009 (O&M, North Central), Chief Engineer (Construction), Project Manager (Deyata Kirula-Oyamaduwa), Manager (Kandy North), Manager (Kandy South), and Assistant General Manager in 2017 and was appointed as Deputy Project Director (Kandy City Wastewater Management Project on May 17, 2018, which post he held until he retired from the NWSDB on December 30, 2022, serving the NWSDB for 18 years.

**Eng. K. Premakumara**

**(1996–2022)**

Eng. K. Premakumara obtained his Bachelor of Science degree in Civil Engineering from the University of Moratuwa in 1993. He joined NWSDB as a Civil Engineer in 1996. In 1997, he was appointed as Engineer for NRW-IDU. Then he was promoted as chief Engineer in 2007 and assigned to the Illegal Water Detection Unit in Western Central (NRW). Eng. K. Premakumara conducted training programs as a resource person in Illegal Water Detection and Legal procedures for the past 20 years at the Manpower Development and Training Division. He retired from

NWSDB in 2022 as a Chief Engineer after serving the board for more than 26 years.

**Eng Saman Warakagoda**

**(1989-2023)**

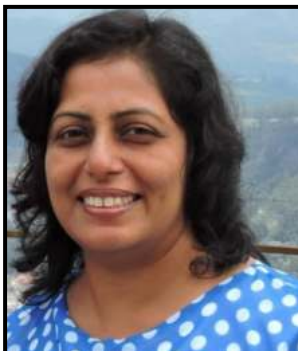

Eng. S. Warakagoda obtained a national diploma in the field of Civil Engineering from the University of Moratuwa in 1983. Then he successfully completed the graduate diploma study programme conducted by the Institute of Engineers, Sri Lanka. He was a corporate member of the Institute of Engineers Sri Lanka. Eng. S. Warakagoda began his career as an Engineering Assistant at Geo Tech Company in March 1987. He joined the NWSDB as an Engineering Assistant in October 1989. Then, he got an opportunity to continue his professional career attached to a well-reputed leading company, Shimzu Corporation Japan, in Zambia. After returning from Zambia in 1997, he was assigned to RSC (Central). Successively, he served in various positions, such as Engineer (P&D Kurunagala), Engineer (Construction, RSC, Central), Project Manager, 2016 (Galagedara) Mawathagama Water Supply Project), and was promoted to Chief Engineer (Construction, RSC Central), which post he held until retired from the NWSDB in 2023, serving the board for more than 34 years.

**Eng. A.H. Nimal**

**(2005-2022)**

Eng. A.H. Nimal obtained his Bachelor of Science degree in Civil Engineering from the University of Peradeniya in 1993. Then he obtained a master's in Business Administration from Wayamba University, Sri Lanka, in 2018. He is a corporate member of the Institute of Engineers, Sri Lanka. Eng. A.H. Nimal joined NWSDB as a Senior Engineer for the Greater Kandy Water Supply Project in 2005. Successively, he served in various positions such as Senior Engineer 2006–2010 (Nuwara Eliya District Water Supply Project), District Engineer (O&M)–Nuwara Eliya, Area Engineer 2010–2015 (Kandy–East), Chief Engineer 2015–2018 (P&C–RSC–Uva), District Manager 2018–2022 (WASSIP–Kegalle). He retired from NWSDB in 2022, serving to the board for more than 17 years.

**Eng. L. P. Hettiarachchi**

**(2003-2022)**

Eng. L. P. Hettiarachchi obtained her BSc Engineering (Chemical) degree from the University of Peradeniya in 2000. Then, she obtained a Master of Engineering (Industrial Automation) from the University of Moratuwa in 2008, a PG Diploma in Energy Technology from the University of Moratuwa in 2020, and an MSc in Sustainability and Environmental Management from Coventry University UK in 2023. She has been a corporate member of the Institution of Engineers Sri Lanka since 2014. She joined NWSDB as a mechanical engineer in 2003. Successively, she served in various positions, such as Mechanical Engineer in 2003 (Regional Support Centre, North Central/Ground Water Section, Head Office), Senior Mechanical Engineer (Central Workshop), Chief Mechanical Engineer (GPOBA Waste Water Project/Mechanical and Electrical Section/Planning and Design Section Head Office), and she held this position until she resigned from the NWSDB in 2022, serving the board for 19 years.

**Eng. K.H.N.G. Kumarasinghe**

**(1992-2023)**

Eng. K.H.N.G. Kumarasinghe obtained his B.Tech. Engineering (Electronics) Degree from the Open University of Sri Lanka in 2006 and the Masters in Business Management Degree from University of Colombo in 2016. He worked as a Senior Engineer (IT) in the Information Technology Section of the Regional Support Centre (Western Central). Eng. K.H.N.G. Kumarasinghe finally retired from NWSDB in 2023 after 31 years of service.

**Eng. D.G.U.Senarath**

**(1992-2022 )**

Eng. D.G.U. Senarath obtained the National Diploma in Technology in the field of Civil Engineering from the University of Moratuwa in 1991. Then he successfully completed the GTO 3<sup>rd</sup> examination in civil engineering in 1993. Eng. D.G.U. Senarath joined NWS&DB as an Engineering Assistant in 1992. Before becoming a part of NWSDB, Eng. D.G.U. Senarath gained valuable experience working at Mitsui Construction Lanka (Pvt). Successively, he served in various positions in NWSDB, such as Engineering Assistant 1992–1998 (Management Analysis Unit at Head Office), Engineer 1998–2008 (Kethhena Water Treatment Plant), Engineer 2014–2021 (Development, Maharagama), and Engineer 2021–2022 (O&M, Maharagama). He retired from the NWSDB in November 2022 after serving the NWSDB for 30 years.

# ENGINEERS' UNION

## NATIONAL WATER SUPPLY & DRAINAGE BOARD

### NOTES TO THE FINANCIAL STATEMENTS

Year Ended March 31, 2023

#### 01. BASIS OF PREPARATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### 01.1 Basis of Preparation

These financial statements have been prepared in accordance with the Sri Lankan Financial Reporting Standard for Small and Medium-sized Entities issued by the Institute of Chartered Accountants of Sri Lanka. These financial statements are the separate financial statements of the Engineers' Union - National Water Supply & Drainage Board.

The functional currency of the organization is Sri Lankan Rupees. The financial statements of the entity are presented in Sri Lankan Rupees.

##### 01.2 Authorization For Issue

The financial statements of The Engineers' Union - National Water Supply & Drainage Board, for the year ended March 31, 2023, covering the period April 01, 2022 to March 31, 2023, were authorized for issue by the office bearers on August 28, 2023.

##### 01.3 Going Concern

The office bearers are satisfied that The Engineers' Union - National Water Supply & Drainage Board has adequate resources to continue in operational existence for the foreseeable future and continue to adopt the going concern basis in preparing and presenting these financial statements.

##### 01.4 Use of Estimates and Judgements

The preparation of the financial statements of the organization in conformity with the Sri Lanka Accounting Standards (SLFRS for SMEs) requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amount of assets and liabilities, income and expenses.

##### 01.5 Cash & Cash Equivalents

Cash and cash equivalents are defined as cash in hand, demand deposits and short-term highly liquid investments, readily convertible to known amounts of cash and subject to insignificant risks of changes in value.

##### 01.6 Liabilities and Provisions

Liabilities are recognized in the balance sheet when there is a present obligation arising from a past event, the settlement of which is expected to result in an outflow of resources embodying economic benefits. Obligations payable at the demand of the suppliers or within one year of the balance sheet date are treated as current liabilities in the balance sheet. Liabilities payable after one year from the balance sheet date are treated as non-current liabilities in the balance sheet.

A provision is recognized in the balance sheet when the organization has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits for which a reliable estimate could be made is required to settle the obligation.

**ENGINEERS' UNION**  
**NATIONAL WATER SUPPLY & DRAINAGE BOARD**  
**NOTES TO THE FINANCIAL STATEMENTS**

---

Year Ended March 31, 2023

**02.2.7 Income Statements**

**a) Revenue Recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the organization and the revenue and associated costs incurred or to be incurred can be reliably measured.

**Subscription and sponsorship fees**

Due to the uncertainty of realization, Sponsorships and Grants are accounted on Cash basis

**Others**

Other income is recognized on an accrual basis.

**b) Expenditure Recognition**

Expenses are recognized on accrual basis.
